Plant Pricing and Availability subject to change without notice until a confirmed order has been placed and a deposit has been received.

Retail Discounts:

Purchases over \$100 - 5% discount

Purchases over \$250 - 10% discount

Purchases over \$500 - 15% discount

Purchases over \$1000 - please inquire about wholesale pricing

Discounts are also available for full trays containing a single species - please inquire

Wholesale: Please contact us for wholesale pricing or contract growing. Material can be provided in sizes not listed below if the appropriate lead time is provided.

Container Sizes:

3" POTS are either 3.25" dia x 3.5" deep squares or 3" dia x 4.25" deep squares.

4" POTS are either 4" dia squares, 3.5" dia x 5" deep squares, or larger (generically referred to as quarts in the trade).

GAL POTS are the typical "trade gallon" offered in the nursery trade or Tall Tree Pots.

PLUGS are 2.5" in diameter and listed by depth; they can be purchased individually. The plugs we use offer a nice balance of providing for deep and spacious root growth while lowering container soil capacity (and costs). The 2.5" x 5" plugs hold approximately 70% more soil than an individual cell in a 38 count plug flat.

TWO GALLON or larger containers are occasionally available for shrubs/trees or very robust wildflowers and grasses. Please inquire if your project requires containers of this

Visit our web site for specific details on each species including sun exposure and soil moisture requirements along with typical heights and blooming seasons. Individual pages for each species also include photos and additional information/comments. This sheet will be updated and posted to the web site throughout the growing season.

An asterisk(*) below indicates the material being sold is **NOT MICHIGAN GENOTYPE**. Please visit our web site for further details as most non-Michigan genotypes originate from Northern Indiana or Northern Illinois.
